HOBBIES

Mr.

RAKESH N. MISTRY

I have 6 years experience in web designing. I understand the client requirements and using my knowledge I try to provide a complete solution of designing as well as coding.

I have learned to support the clients with their requirements and perform the rendered projects as a **STRONG TECHNICAL SUPPORT** with accuracy. Efficiency, Enthusiasm, Diligence, Attention to Details to the projects and being hardworking, Multitasking, Analytical & problem solving nature, Confident I have brought the projects to the core efficacy and with adherence to the deadlines.

My core interest is in web designing to make things creative and attractive. I have good knowledge about bootstrap to make things responsive as well as I have a grip on graphics software like Fireworks and Photoshop. I am a quick learner.

I would like to be your desired strong technical support who will maintain and perform to be successful.
